

Poultry business is tough.  
But **probiotic** decisions  
should be **easy**.

**CHR HANSEN**  
*Improving food & health*

**GalliPro® Fit**  
The easy choice.

## GalliPro® Fit

Selected triple strain  
probiotic to:

- Boost prevention programs
- Contribute to food safety
- Bring profitability

**CHR HANSEN**

*Improving food & health*

## What is GALLIPRO® Fit

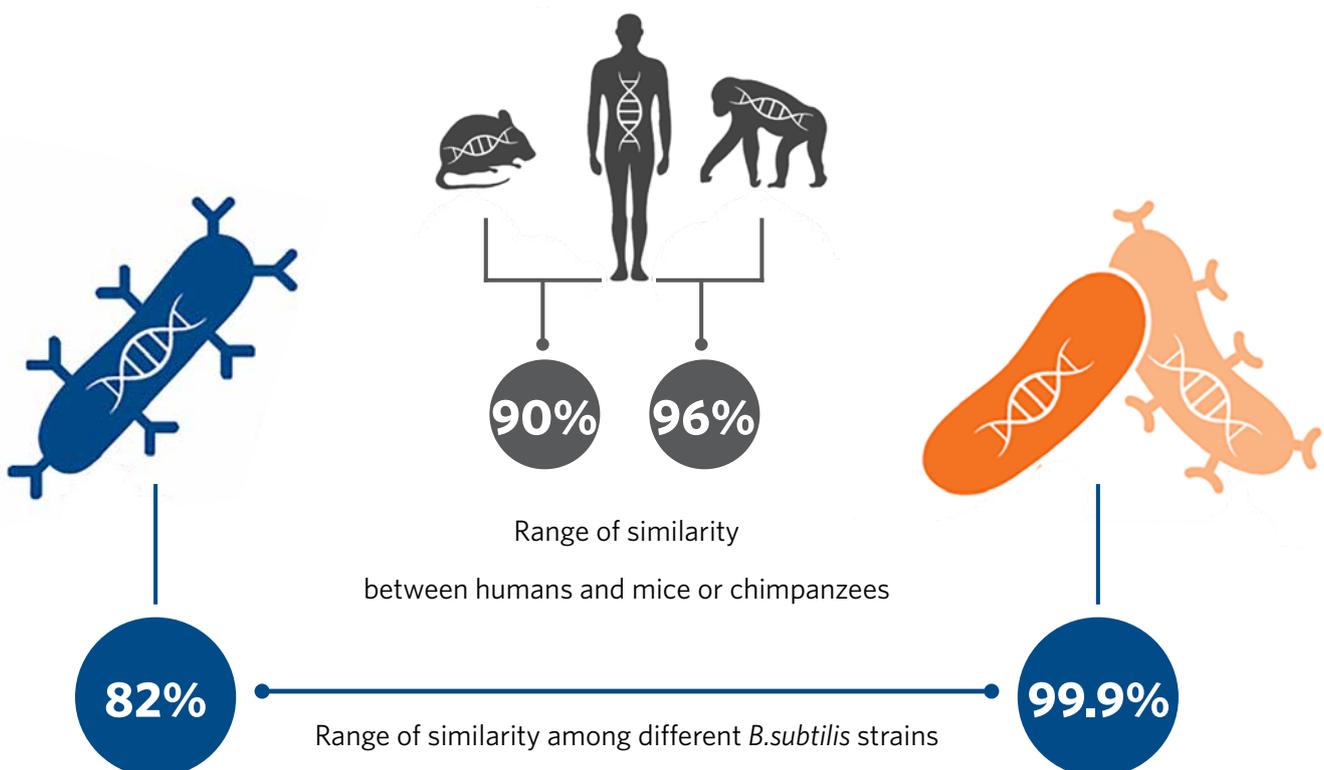

**GALLIPRO® Fit** is the selected triple strain poultry **probiotic to boost prevention programs** and contribute **to food safety** delivering **profitability**.

**GALLIPRO® Fit** contains three carefully selected, naturally-occurring strains.

They were selected specifically for their ability to inhibit the proliferation of pathogenic organisms and for their ability to improve digestibility of feed.

### Strains matter

#### Why it is important to select the "right" *Bacillus*?

*Bacillus subtilis* species have more than 1,000 strains recorded in international strain banks. Selecting and differentiating strains matters greatly for the health and food industries as different strains have unique properties. There is huge difference between strains in e.g enzyme production, inhibition of pathogenic bacteria abilities, germination etc.

## Boost prevention programs

Modulate the immune system and prevent necrotic enteritis.

### Risk Free

**GALLIPRO® Fit** effect tested in your feed.

**GALLIPRO® Fit** effect tested against your farm pathogen.

### Contribute to food safety

Keep pathogens under control:  
*Salmonella* spp. and *E. coli*

### Easy

Three heat stable strains in one bag providing predictable outcomes.

### Brings profitability

Performance and nutritional value drive strong profitability with a positive return.

## Get to know Chr. Hansen:

Global bioscience company with Danish roots. Our products are based on nature's own resources.

"Our purpose is to deliver natural innovative solutions that address global challenges by advancing food, health and productivity"
