

Nutrase® Xyla HS

ENDO-1,4-B-XYLANASE

Improves gut health, performance and lowers feed costs

Nutrase Xyla HS is a purified endo-xylanase that has been specifically selected to maximise the feed digestibility, health and performance of your animals in both corn and wheat based diets. Nutrase Xyla HS is truly unique xylanase because it can very efficiently reduce the anti-nutritional effect of both the water-soluble and water-insoluble AX to create prebiotic AXOS and it also stays active even when very high temperatures or severe pelleting conditions are used.

PUT THE **BEST** IN,
GET THE **MOST** OUT!

Form: Powder
Package: 25kg
Characteristics: Light brown

Nutrase's key distinguishing benefits:

- Boosts growth and feed efficiency
- Promotes a healthy gut through prebiotic AXOS
- Increases digestibility
- Improved litter quality
- Lowers feed cost

Nutrase's key distinguishing properties:

- Effective in all rations using corn, wheat or other cereals
- Optimal activity in neutral pH
- Very high stability during pelletizing and storage
