VILOFOSS[®]

Vilofoss was founded in 2012 as a brand for the Danish DLG Premix & Nutrition business. However, DLG set the foundation for Premix & Nutrition back in 1993 and 1994, when it acquired the German premix producer Deutsche Vilomix and the Danish premix producer Vitfoss (founded 1930). Later, French Calcialiment and Swedish Fodermix were added to the group, and recently, acquisitions also count Spanish CPC, Belgian Nutriprof, Dutch Agrinutrition and the joint venture acquisition of French ARC and Finnish Kärki-Agri.

VILOFOSS

a strong brand for premixes, minerals, vitamins and additives

THE VILOFOSS GROUP

Vilofoss creates value-adding solutions for the globally competitive farmer through customized nutritional concepts for animal production.

In addition to our vitamin and mineral compounds, we offer a wide range of specialty products, e.g. milk replacers, veterinary products, welfare products, products for disinfection and other unique trouble-shooters.

The size of the group and the relation to the Danish DLG make us a valuable adviser and partner for the agricultural sector. Our commitment is professional consulting, targeting the optimisation of our customers performance.

VILOFOSS VALUES

TRUSTWORTHY

Because we take responsibility and strive to be our customers' preferred business partner and advisor.

VALUE-CREATING

Because we combine global knowledge with local expertise to help our customers and partners grow and develop by creating new value.

AMBITIOUS

Because we strive to be the best in our field.

VILOFOSS CORE ACTIVITIES

Premixes
Minerals and vitamins
Specialty products

PREMIXES, RESEARCH AND DEVELOPMENT A TOP PRIORITY

R&D has always been a priority at Vilofoss, generating new, unique products within the group and sold internationally. Finding new and effective solutions to add more value for farmers has allowed Vilofoss to be a market leader. The company has received many awards over the past years.

Our well-established knowledge is based on valid trials, which help increase the bottom line of the farmer. In close cooperation with the farmer, we turn science into practice.

At the Vilofoss Group, we share highly specific knowledge across borders. To ensure the supply of new specialised know-how that provides new opportunities for our customer's, we seek the latest scientific results from national and international research institutions. Through credible and ambitious R&D activities, our aim is value-creating solutions. And we are always one step ahead of the competition.

WHY VILOFOSS

- ◆ Quality at all levels
- ◆ Complete traceability of all raw materials from serious business partners
- ◆ A strong professional/technical set-up
- ◆ Professionally competent employees

WE KEEP OUR PROMISES

- ◆ Our know-how is based on practical experiences and scientific experiments
- ◆ A global network through colleagues and cooperation partners
- ◆ We create long-lasting partnerships with focus on the individual customer
- ◆ Your success is our success

Optimal Nutrition For An Efficient Poultry Production Starts With The Premix

The poultry industry is one of the fastest and rapidly developing branches in animal production. Poultry nutrition plays an essential and leading role in ensuring the ever-growing genetic potential in terms of body weight gain, feed conversion ratio, egg numbers, egg mass and hatchability. It is also an important pillar for health and animal welfare.

Vilofoss is a key partner in providing not only top quality premixes and minerals, but also on-farm nutritional and management advice to our customers

PREMIUM QUALITY PRODUCTS AND COMPETENT ADVISERS

Quality management in Vilofoss is highly prioritised. In production, we exclusively use high-quality raw materials. They are sourced from top-certified suppliers based on careful auditing and product quality control. All our Vilofoss production facilities are FAMI-QS certified.

Thanks to our poultry nutritionists, Vilofoss offers individually adapted advice and tailor-made nutritional solutions, aiming to optimise the production according to the farmer's specific conditions.

We have extensive experience in formulating high-performance feed for different needs in poultry production.

High-quality Poultry Deserve High-quality Nutrition

ONLY SCIENCE PROVEN ADDITIVES

High-quality poultry deserve high-quality nutrition this is the principle of our business. At Vilofoss, we collaborate with the leading producers of feed additives, to bring their performance and benefits to our customers. We are committed to using the highest quality ingredients and scientifically proven additives, and we are known for selecting highly bioavailable ingredients.

NO COMPROMISE ON QUALITY

Vilofoss considers the poultry sector one of our most important customers. Thus, we will never compromise on quality and performance. Furthermore, we formulate our nutritional solutions based on each farm's specific needs.

PRACTICAL KNOWLEDGE

Each day we are in direct contact with farmers around the world. We have detailed knowledge about their production, and we are determined to assist the farmers of today by formulating the diet of tomorrow while ensuring production value.

POULTRY PRODUCTS

PECKSTONE Pre-occupation material

- ◆ Easy to use - effective - economical - safe
- ◆ Available in different hardness grades
- ◆ Enables the animals to act out species-specific pecking behaviour
- ◆ Reduces stress caused by interaction between animals
- ◆ Prevents feather pecking and cannibalism
- ◆ Satisfies the individual needs for minerals intake
- ◆ Supports the natural beak wear by good abrasive effect of the mineral content

LIQUID SUPPLEMENTS

- ◆ Vilofoss Success VitAm S
- ◆ Vilofoss Success AD3EC
- ◆ Vilofoss Success Liver PS
- ◆ Vilofoss Success Selenium+E
- ◆ Vilofoss Success Avian Bloc-B
- ◆ Vilofoss Success A-Breeze

MT SUPERSORBER Broad-spectrum mycotoxin binder

- ◆ Higher feed intake and improved feed conversion ratio
- ◆ Enhances fertility and reduces hatchability problems
- ◆ Stabilises gastrointestinal system
- ◆ Improves health status and well-being
- ◆ Tasteless and no influence on mineral utilisation

LAYING PLUS

Metabolism activator improves performance of laying hens

- ◆ Improves the liver function
- ◆ Supports the metabolism
- ◆ Considerable improvement of eggshell quality
- ◆ A more stable production performance

MEIDAROM

Keeps nuisance pests away from your poultry

- ◆ Supplements the feed with valuable essential oils from traditionally used plants (clove, citronella grass)
- ◆ Changes the attractivity level of hens for nuisance pests
- ◆ Nuisance pests avoid the closeness of the hens
- ◆ It's also available in organic and liquid versions

VILOFOSS VITAL

Improves the immune defence and boosts performance

- ◆ Higher vitality
- ◆ Suitable for stress periods like heat stress
- ◆ Beneficial for health status and immune defence
- ◆ Reducing growth depressions
- ◆ Higher feed intake and increased feed utilization
- ◆ Enables better recovery and improves performance

STALOSAN

Hygiene Powder Products

- ◆ Reduces the development of harmful substances in animal environments, so improves animal welfare
- ◆ Supports skin tissue quality, therefore, inhibits pathogens from entering the body
- ◆ Highly effective ammonia (NH3) binder
- ◆ Protects the overall health of the birds
- ◆ Excellent absorbing and water holding capacity keeps bedding dry and pathogen pressure low
- ◆ Footpad quality improvement - less skin burning

VILOFOSS WORLDWIDE

In addition to the four main companies in Denmark, Germany, France and Sweden, Vilofoss also has production/offices in the following countries: the UK, Canada, USA, China, Spain, Belgium, Bulgaria, Finland, Lithuania, Latvia, Hungary, Romania and Russia.
