- + Flexible handling via water - or spray application

LIQUID APPLICATION

Biochem
Feed Safety for Food Safety®

MENTOVEST

WHITE CAPS

SUPPORTS FUNCTION OF THE RESPIRATORY TRACT OF POULTRY

Mode of action

MentoVest is a well-balanced formulation based on different natural essential oils. The composition of **MentoVest** helps to decrease the amount of excessive mucus in the respiratory tract through its decongestant and cooling effect on the mucous membranes.

MentoVest can be used to relieve respiratory symptoms or during heat stress via application in the drinking water or by spraying or misting.

The benefits resulting from the application of **MentoVest** for poultry are:

- + Effective in case of respiratory problems
- + Stimulates air and feed intake
- + Antimicrobial effects

MentoVest soothes irritations of respiratory membranes and helps to ensure your animal's performance by improving oxygen intake during respiratory problems and by providing relief during heat stress.

Package size

1 liter bottle and 5 liter canister
