

VILOFOSS® special feed

VILOFOSS®

# Pansen-Neutral

Special mineral feed for high acid production

**VILOFOSS®**

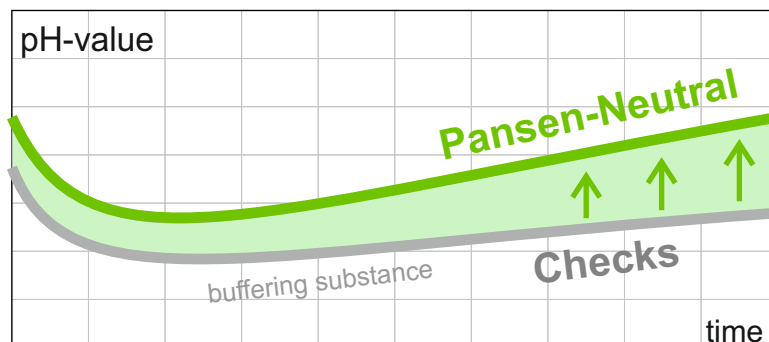

VILOFOSS®

# Pansen-Neutral

Special mineral feed for high acid production in the rumen

If the rumen pH is too low and not optimal, dry matter intake decreases, rumen acidosis develops (sub-acute or chronic latent) and microbial performance decreases.

**Pansen-Neutral** has a positive impact on feed intake, milk yield, milk constituents and animal health.

↑ Feeding time-point

**Pansen-Neutral** buffers and stabilises the rumen pH-value.
